Harvard Undergraduate Architecture Studies 2022/23

For students of Harvard College, Architecture Studies is a track within the Faculty of Arts and Sciences, History of Art and Architecture concentration, jointly administered by the History of Art and Architecture and the Graduate School of Design. Linking the GSD and Harvard College, the track represents not only a first chance for undergraduates to tap into the GSD's offerings, but also the enrichment that architecture and design thinking can offer to liberal-arts studies.

The following listing serves as a guide for design course offerings offered at the Graduate School of Design in the upcoming academic year that may be used to fulfill Distributional Requirements in Area of Emphasis and whose content and assignments are well-suited to Harvard College students. For more general track information, please contact:

Marcus Mayo, History of Art + Architecture - marcus_mayo@fas.harvard.edu or Megan Panzano, Harvard GSD - mpanzano@gsd.harvard.edu

Please read carefully any course description linked below on the GSD website for fall 2022. If you have specific questions about the course or its expectations, please contact the course instructor listed for a particular course.

A note about grade evaluations: The GSD's courses are evaluated on a pass/fail scale by default. If you are hoping to use a GSD course as credit toward your concentration, you will require a letter grade as your evaluation. In order to obtain this, you must seek the written approval, via email, from the instructor at the start of the term. Once approved, the student should forward to GSD Registrar, Sean Conlon: sconlon@gsd.harvard.edu.
