

Harvard Undergraduate Architecture Studies

2024/25

For students of Harvard College, Architecture Studies is a track within the History of Art and Architecture (HAA) concentration, jointly administered by the HAA and the Graduate School of Design (GSD). The track is a first chance for undergraduates to tap into a selection of the GSD's offerings. Introducing architecture and design thinking into liberal arts studies, the track also enriches undergraduate education at Harvard. The following listing serves as a guide for design course offerings offered at the Graduate School of Design in the upcoming academic year that may be used to fulfill concentration requirements in the "Four courses that investigate the history and/or theory of architecture, environments, and design media" group and whose content and assignments are well-suited to Harvard College students.

Recommended GSD Courses for Harvard Arch Studies Undergraduates - fall 2024

****Courses not on this list require prior approval from the Director of Undergraduate Studies to count for concentration credit. Please note that GSD courses are evaluated in terms not equivalent to grades used by the FAS and will not be used to compute either your college or departmental GPA. While these classes will fulfill concentration requirements, they will not count towards the 84 letter-grades of C- or higher required by the College. If a GSD course is joint-listed with the FAS, students should register for the FAS version of that course where possible. No more than two GSD courses will be counted towards the concentration. For further information, please consult the [HAA Undergraduate Program Handbook](#).**
