HOW TO EXTRACT IMAGES FROM A PDF WITH ADOBE ACROBAT PRO

Extracting a single page as an image from a multi-page PDF

1. Open the PDF in **Adobe Acrobat Pro**.

2. Make sure "Page Thumbnails" are displaying. If "Page Thumbnails" is not showing, go to the **View** menu, select **Show/Hide**, select **Navigation Panes** and then choose **Page Thumbnails**.

3. Under the **Page Thumbnails** section, select the page to be extracted, right-click (or control-click on the Mac), and select **Extract Pages**.

4. In the **Extract Pages** window, check the box "Extract Pages As Separate Files" and click **OK**.

5. Select the location to save the page and click **Choose**.

6. Open the newly extracted page in **Adobe Acrobat Pro**.

7. Go to the **File** menu and select **Save As**.

8. In the "Save As:" field, enter in a new filename.

9. Under the "Format" dropdown menu select **JPEG .**

10. Click on the **Settings…** button, change both the "Grayscale" and "Color" settings to **JPEG (Quality : Maximum)** and click **OK**.

11. Click **Save**.

12. Once the image has been saved, open it in any image editing software and crop as needed.

Extracting multiple pages as images from a multi-page PDF

NOTE: When extracting multiple images from a multi-page PDF, Adobe Acrobat Pro will save every page of the document, whether you want them or not, as an individual files. Unfortunately, there is no way to select a range or a grouping of pages.

1. Open the PDF in **Adobe Acrobat Pro**.

2. Go to the **File** menu and select **Save As**.

3. In the "Save As:" field, enter in a new filename.

4. Under the "Format" dropdown menu select **JPEG.**

5. Click on the **Settings…** button, change both the "Grayscale" and "Color" settings to **JPEG (Quality : Maximum)** and click **OK**.

6. Click on the **New Folder** button, enter in a folder name and click **Create**.

7. Click **Save**.

8. Once the pages have been extracted, open the page(s) containing the images of interest in any image editing software and crop as needed.

9. Discard any unnecessary pages that were extracted from the PDF.
